DESIGN POV

DESIGN DONE DIFFERENTLY

A LENS ON **PERSPECTIVE**

In June 2025, the Jio World Convention Centre in Mumbai witnessed a cultural shift. **Design POV** changed how we gather, collaborate, and create design in its truest sense. Over one weekend, the show saw unprecedented inter-disciplinary collaboration, challenged conventional formats, and offered a peek into the future of the design, art, and architecture space.

An abstract sculpture of a human figure, composed of numerous overlapping spheres in shades of red, blue, and grey. The figure is positioned centrally, with its head at the top and legs at the bottom. The spheres vary in size and are arranged to create a sense of depth and texture.

PARTNER WITH US – WHY IT MATTERS

For
Architects
Designers
Brands Artists
& Design
Minds

At The Forefront Of Lived Space Creation.

Showcase –

Your products & philosophy in fully-realized spaces.
